

characteristics All-In-One Trend 2 with castors

Article: 9633 artificial leather

Dimensions in mm	Backrest:	H:	500
	Seat:	H:	450-600
		B:	460
		T:	410-470
Packing data	Weight	kg	17,5
	Volume	m³	0,25

**Base equipment****Benefit**

Seat and backrest	Large, ergonomically designed backrest to take the strain off the spine and muscles.	Healthy posture due to a hump providing support for the back in the lumbar region.
	Ergonomically designed, extra high seat. With integrated pelvic support and rounded front edge of the seat.	The seat automatically encourages the correct posture and upright, healthy sitting. The round front edge of the seat prevents blocked circulation in the thighs.
	Artificial leather upholstery: High-level synthetic leather "Skai" Resistant to disinfectants, washable and easy-care Selectable in following colours: Black (2571) Blue (6902) Grey (6911) Red (6903).	This high-quality fabric upholstery is breathable and can both absorb and expel moisture. The extremely soft surface guarantees maximum comfort.
Seat height	Stepless seat height setting from 450 - 600 mm supported by safety gas spring with protective cover.	The seat height adjustment can be adapted to the body size and the height of workbenches. Wide range of height adjustment.
Ergonomic package	Synchronous mechanism with weight regulation	The synchronous mechanism ensures that the seat and backrest tilt are automatically adjusted in line with the user's current posture. This results in dynamic sitting which relaxes the muscles, relieves strain on the intervertebral disc, improves circulation and boosts concentration and performance considerably. Continuously variable weight regulation system ensures that the backrest responds in accordance with the pressure which is applied. The synchronous mechanism is particularly useful in cases where a frequent change in working posture is given.
	Seat inclination (up to 6°)	The continuously variable tilt adjustment function, which can be used to tilt the seat forwards ensures a minimum seat angle of 90° even when leaning forwards into the work.
	Seat depth adjustment (Stepless by 60 mm)	Seat depth can be adapted to all body sizes
	Backrest height adjustment	Ensures the best possible support of the lumbar region - regardless of the operator's size
	Quick adjustment	All the adjustment functions allow quick and easy operation via levers while the user is sitting
	Anti-Shock lock	The backrest cannot accidentally spring forwards even after the lock has been released
