

Performance features

UNITEC with glides and footring

Article	9651
Dimensions in mm	Backrest: H 460
	Seat: H 580 - 850 mm
	W 460 mm D 470 mm
Packaging data	Weight: 15,0 kg
	Volume: 0,15 m ³

Basic equipment

Seating surface and backrest	Ergonomically shaped backrest that is tapered towards the top.
	Ergonomically shaped seat. With integrated pelvic support and rounded front edge of the seat.

Upholstery elements	Plywood beech: (3000)
	Citadel upholstery: black (CI01), blue (CI02)
	artificial leather upholstery: black (0551), blue (0562)
	integral foam: black (2000)
	Supertec: black (SP01)

Seat height	Seat height adjustment continuously from 580-850 mm via safety gas spring with protective cover.
-------------	--

Mechanics	Permanent contact backrest
-----------	----------------------------

Benefits

Maximum freedom of movement. Allows a wide reach without sacrificing back support.

Automatically encourages a correct posture. The rounded front edge of the seat prevents blood from pooling in the thighs.

The washable material is particularly well suited for environments with aggressive working materials. Wood is durable, robust, long-lasting, and easy to clean.

Fabric covers are particularly suitable for clean environments. They are breathable and can absorb and release moisture. The particularly soft surface guarantees maximum seating comfort, especially when sitting for long periods. Citadel fabric is hard-wearing and can be cleaned with standard upholstery cleaning agents.

The PVC-free synthetic leather is particularly quick and easy to clean.

It is durable, easy to wash off, and resistant to oils and all commercially available disinfectants. The material is particularly soft and comfortable.

Integral foam is particularly suitable for environments where aggressive substances such as chemicals, disinfectants, or moisture are present. Integral foam is also particularly resistant, robust, and durable.

Supertec was developed specifically for production environments. It consists of extremely robust, cut-resistant, and slip-resistant micro-armor. At the same time, it is comfortable, easy to clean, and breathable, even on hot days.

The height adjustment allows you to adapt the chair to your body size and workstation height. Wide adjustment range.

The movable backrest follows the upper body and adapts to the respective working posture. This supports the spine in all sitting positions. If necessary, the backrest can be locked in any angle.

UNITEC

	Backrest height adjustment	Ensures that the person is ideally supported, especially in the lumbar region, regardless of their height.
	Quick adjustment	All functions can be conveniently and easily operated while seated using the control lever.
Base	Stable, flat-tapered five-foot base made of plastic.	High stability, durability, and sturdiness. Flat ends protect against tripping hazards.
Castors/Glides	Glides	Glides are particularly suited for workstations where a chair needs to offer firm support without sliding away, e.g. for activities that require a lot of strength. The glides are made of robust, abrasion-resistant plastic.
	Castors	Castors are particularly suited for workstations that require flexibility and movement. The models are equipped with soft, load-dependent braked safety double castors for hard floors (e.g. concrete, tiles, etc.) as standard.
Footring	Chrome-plated height-adjustable foot ring.	Provides support thanks to its wide tread surface and can be adjusted quickly and easily in height.
Standards/certification	DIN 68 877 GS certificate for "tested safety" Quality management DIN EN ISO 9001 Environmental management DIN EN ISO 14001 Certified environmental management EMAS Occupational health and safety management OHSAS 18001 EcoVadis CSR rating 2015 Gold	High safety and comfort. High-quality product.
Warranty	10-year long-term warranty	Free shipping of replacement parts throughout the entire period.
