YOUR WORKPLACE CHAIR

TEXON 1 + 2

FOR PRODUCTION ENVIRONMENTS

It really proves itself in situations where diverse tasks need to be completed: With its innovative seat mechanism, TEXON is ideal for workplaces in production facilities. Its sleek, ergonomic design enhances the workplace and provides employees with a feeling of safety in harsh environments thanks to its robust construction.

Dimensions in mm	Backrest:	H 570
	Seat:	H 450–620 W 475 D 460
Packaging data	Weight Volume	16 kg 0.25 m³

Basic equipment

Seating surface and backrest	Ergonomically shaped backrest that is tapered towards the top
	Ergonomically shaped seat. With integrated pelvic support and rounded front edge of the seat.

Upholstery elements	Click system can be changed without tools
---------------------	---

**Supertec (global innovation)**  
Available in black (SP01) and grey (SP11).

**Skintec (global innovation)**  
Available in black (4000), grey (4002) and off-white (4007).

**Duotec fabric upholstery**  
Available in black (6801) and grey (6811).

**Artificial leather upholstery**  
Available in black (MG01) and grey (MG11).

Benefits

Maximum freedom of movement. Allows a wide reach without sacrificing back support.

Automatically encourages a correct posture. The rounded front edge of the seat prevents blood from pooling in the thighs.

Supertec is a particularly innovative cover material. It is made from extremely hard-wearing, cut-resistant, non-slip micro-plating, as well as a soft backing material for optimal comfort. The breathable materials ensure a pleasant sitting experience even on hot days. Supertec is an easy-care material that is resistant to cleaning agents.

This innovative upholstery surface has been specially developed for the TEXON and stands out on account of its aesthetics. The soft upholstery core guarantees exceptional seating comfort. Not only is this upholstery extremely robust and hard-wearing – it's also particularly easy to care for and is resistant to commercially available disinfectants. The resistance to disinfectants has been tested and certified. The innovative production process excludes any environmentally harmful substances. Altogether, this makes Skintec the perfect combination of sustainability, comfort, aesthetics, hygiene and durability.

Fabric covers are particularly well-suited to clean environments. They are breathable and can absorb and release moisture. The ultra-soft surface ensures maximum seating comfort, even when sitting for long periods. The Duotec fabric is hard-wearing and can be cleaned with commercially available upholstery cleaning agents. The PVC-free artificial leather is particularly quick and easy to clean. It is hard-wearing, easy to wash down, and resistant to oils and all commercially available disinfectants. The resistance to disinfectants has been tested and certified. The material is particularly soft and comfortable.

TEXON

Mechanism	Automotion technology with Flex-Back	Take a seat and automatically adopt a good posture without no need for any complex adjustments to the chair - this is made possible by Auto-Motion technology. The seat and backrest dynamically remain in contact with the body, creating a feeling of floating and gliding. The Flex Back increases the flexibility of the backrest and allows for slight, relieving movements in the back; can also be locked as necessary.
Adjustments and functions	Seat height (infinitely adjustable from 450 to 620 mm)	Seat height adjustment to adapt to the workstation height and height of the user.
	Anti-shock lock	The backrest cannot move forwards unintentionally even after the lock has been released.
	Automatic weight regulation	The automatic weight regulation ensures that the backrests provide optimal resistance, supporting active-dynamic sitting. Each individual user is therefore supported intuitively, in a manner that suits their needs.
Base	Aluminium anthracite	The anthracite aluminium base is particularly robust, durable and easy to keep clean.
Castors/glides	Castors	Castors are particularly suited for workstations that require flexibility and movement. The models are equipped with soft, load-dependent braked safety double castors for hard floors (e.g. concrete, tiles, etc.) as standard.
	Glides	Glides are particularly suited for workstations where a chair needs to offer firm support without sliding away, e.g. for activities that require a lot of strength. The glides are made of robust, abrasion-resistant plastic.
Load capacity	Load capacity up to 150 kg	
Standards/certification	DIN 68 877 GS certificate for "tested safety" DIN EN ISO 9001 quality management DIN EN ISO 14001 environmental management EMAS tested environmental management OHSAS 18001 occupational health and safety management	The ultimate in safety and comfort. High-quality product.
Warranty	10-year long-term warranty	Free shipping of replacement parts within the entire period.
<b>Accessories</b>		
Armrests	4D armrests	The 4D armrests can be adjusted in height (110 mm), width (20 mm) and depth (60 mm) and can be swivelled in or out (+/-45°)
